

Bear's Birthday Game

You will need one pawn per child and a die to play this game. Print one game board on card paper. Print one copy of the birthday bear collector card for each child and a set of picture cards per child on card paper. Children place their pawns on start. Children roll the die and move around the board collecting picture cards as they land on them. One picture card per child is collected - if they land on a card that they already have, they do not collect a second card. First player to collect all picture cards wins the game. Laminating will ensure durability.
